## Item # CT1035, Condensate Tanks

We manufacture a variety of condensate tanks. Many of our tanks are replacing existing leaking units that were designed without corrosion allowance. We begin with a 1/4-inch minimum thickness on all sizes of condensate receiver and often use 3/8-inch thickness. When buying a system with pumps, motors, or gauges, don't forget that the tank is an integral part of the system. You can protect your system by buying a tank with corrosion allowance from Midwest Tank Co.

## Specifications

<b>Capacity</b>	1035
<b>Length (A)</b>	11'-0"
<b>Diameter</b>	4'-0"
<b>Dim. (C)</b>	6'-1/2"
<b>Dim. (D)</b>	4'-0"
<b>Dim. (E)</b>	12 in
<b>Low Pressure Return (F)</b>	4 in
<b>Dim. (G)</b>	2 1/2 in
<b>Dim. (H)</b>	3 in
<b>Hi Pressure Return (I)</b>	2 1/2 in
<b>Dim. (J)</b>	3 in
<b>Tank Heater (K)</b>	2 1/2 in
