Vertical Flash Tank

This vertical flash tank is made with 304L stainless and designed as an ASME pressure tank rated for 30 PSI and full vacuum. It has an internal baffle and contains (2) 24" dia. manholes for access. On the top of the tank are (2) 6" view ports installed for inspecting the inside of the tank while the tank is operating. The ring base is made of carbon steel and will be prime painted inside and out prior to shipping.
